

# MODEL 800/1250 CLEAR LENS DUST COVER MOUNTING INSTRUCTION SHEET

1. Place o-ring around outside of strobe lens, so that it rests evenly in the groove closest to clamp ring (as shown in Figure A).
2. Peel backing off tape on inside of dust cover (Figure B).
3. Slowly place clear lens dust cover over strobe lens. Push down firmly with a slight twisting motion to secure a tight seal (Figure C).
4. The dust cover is now permanently attached to the strobe lens (Figure D).
